

Description:

Pietro regulators are appliance regulators used to control and adjust pressures for 2.0 PSI and 5.0 PSI systems.

Features:

- Suitable for a variety of gases including natural gas and LPG
- Comes with both an internal vent limiter and an external vent limiter
- Outlet pressures can be adjusted from 6" W.C. to 14" W.C.
- Outlet Pressures preset at 8" (Natural Gas) or 11" (Liquid Propane Gas)

Listings:

- CSA 6.22a/ANSI Z21.80
